THK Original Grease

AFJ Grease

- Base oil: refined mineral oil
- Consistency enhancer: urea-based

The THK AFJ grease uses refined mineral oil as its base and contains urea-based consistency enhancer and other special additives that give excellent lubrication properties at a wide range of speeds, from low to high.

[Features]

- (1) Wide range of speeds
Provides consistent and even lubrication at both high and low work speeds.
- (2) Wear Resistance
Even at low speeds, it has excellent oil film formation characteristics to reduce wear.
- (3) Resistant to vibration
Reduces wear caused by machine vibration during high-speed operation.
- (4) Low rolling resistance
Reduces rolling resistance in LM guides and ball screws over a wide range of speeds.
- (5) Good pressure-feed characteristics
This product provides excellent pressure-feed performance when used in automatic greasing systems.
